WASHINGTON, April 28.—In the Senate to-day during a discussion of the best method of preserving property along the Mississippi, Mr. Harris said he had believed in the levee system, but that the events of the last two months had greatly shaken his confidence in it; and he suggested the appointment of a commission of scientists, to be charged with the duty of a thorough investigation of the subject in the light of the experience of the whole planet.

Mr. Eustis thought it a very inepportune moment to discuss the question. In the first place, it had come up unexpectedly, and in the next place, he did not think that any Senator had the requisite information on the subject. Steamboat captains who ought to know about the river, were unanimously to-day during a discussion of the best method of preserving property along the Mississippi, Mr. Harris said he had believed in the levee system, but that the events of the last two months had greatly shaken his confidence in it; and he suggested the ap-

experience of the whole planet, place, it had come up unexpectedly, and in the next place, he did not think that any Senator had the requisite information on the subject. Steamboat captains who ought to know about the river, were unanimously in favor of the levee system.

FAITH IN THE OLD SYSTEM. Mr. Hawley said that the levee system would never be got rid of, because Congress had no constitutional power to prevent planters from building levees for the protection of their property; but he also believed that the outlet system had been undervalued, and he thought that Congress should finally settle down on combining the

two systems.

Mr. Walthall said that as far as he knew or believed the people along the river (every man of them) had absolute faith in the levee system, and were generally, if not universally, opposed to the outlet system. He had not the shadow of a doubt that if the outlet system was adopted it would not be long before the Mississippi river would be-come absolutely useless for the purpose of mavigation.

Mr. Vest asked him what would be the

effect of the lake bordering the outlet on the Mississippi jetties.

Mr. Walthall replied that there was no doubt that the river below the Lake Borgne outlet would shoal just as it had shoaled a few years ago below the Bonnet Carre crevasse and the Belle crevasse, and that the whole theory of the Eads system would be

A CLINCHING ARGUMENT. Mr. Gibson, in reply to Mr. Washburn,

said that in spite of the great Atchafalaya outlet (which carried off one-ourth of the water of the Mississippi), the river was higher now than it ever had been.

After further discussion the Vice President said that there was no openion before dent said that there was no question before the Senate, and the business of the morn-

ing hour was proceeded with.

Mr. Blackburn introduced a bill for the admission of the State of Arizona; referred. The land forfeiture bill was then taken up, the pending question being Mr. Call's amendment in relation to railroad lands in

Mr. Pasco argued in favor of the amend-ment, and stated the grounds why he disagreed with his colleague in the matter. The bill went over without action, Mr. Plumb giving notice that he would ask the Senate to sit it out to-morrow.

On motion of Mr. Evarts the Senate bill to incorporate the Society of the Sons of the

American Revolution (reported by him), was taken from the calendar and read. Mr. Plumb made some satirical remarks about efforts to encourage the patriotism that was "lying around loose in the coun-try," and moved to amend the bill by pro-viding the privileges conferred in the bill voting on the amendment (the vote being 12 to 14), the Senate, without action on the

A Bill Providing for the Inspection of Export Ments.

WASHINGTON, April 28.-Representative Funston, from the Committee on Agriculture, to-day reported to the House the Senate bill providing for the inspection of meats for expertation and prohibiting the importation of adulterated articles of food and drink, etc. An amendment to the bill makes it include drugs within the provision prohibiting the importation of articles of adulterated food or drink. An accompanying report says that a number of foreign governments, notably France and Germany, have imposed restrictions which prevent the importation into those countries of our pork products upon the allegation that they con-While we do not believe, says the report,

that such allegations have any foundation in fact, and while we can say we have no knowledge, either directly or indirectly, of the existence of trichina in the pork products of this country, nevertheless we that product resting under the ban of condemnation. We therefore believe it to be our duty to use every means in our power to relieve it of such condemnation, which, when done, will add at least \$50,000,000 captured or destroyed by the Confederate worth of meats to the exports or this constry. The report says that the latter clause of

section 10, relating to the inspection of anihaps of as great importance as the inspection of the hog products, as England, through fear, either feigned or real, of infection or contagion, compels us to slaughter our cattle immediately upon landing at her ports, allowing no time to recover from shrinkage or bruises of the sea voyage, and thus shutting our stock cattle out of her markets absolutely. It is estimated that our cattle in the English markets would bring at least \$10 more per head if all restrictions were removed, which we can in-sist upon only when we have home inspec-

### TREATY OF ARBITRATION

Signed by the Representatives of Nine of the American Republics.

WASHINGTON, April 28.-Representa tives of nine of the American Republics today signed the formal treaty of arbitration in Secretary Blaine's office at the Department of State, namely, the United States, Guatemala, Nicaragua, Salvador, Honduras, Bolivia, Ecuador, Hayti and the United States of Brazil. It is expected that three more signatures and seals will be added soon, and it is hoped that the signs tures of all the powers will be secured in

the course of the summer and autumn. Several of the Ministers remained over at great inconvenience to complete their adhesion to the treaty. Great enthusiasm is felt at the State Department over the rapid progplained that the International Conference plained that the international Conference could only recommend, and that it was the regularly accredited Ministers Plenipoten-tiary who to-day signed the treaty for refer-ence to their respective Governments.

Arizona Legislation Legalized. WASHINGTON, April 28.-The Senate Committee on Territories to-day ordered a substitute to be reported for the bill referred to the committee to legalize the acts of the Arizona Territorial Legislature. The substitute will legalize the acts of all legislatures, including the last one, reserving to future legislatures the power to amend or repeal any of the acts so legalized.

### Catarrh

IS a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla - the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physi-cians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would efit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen betties of this medicine. I am convinced or catarra. After taking half a dozen bettles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 113 River st., Lowell, Mass.
